

*Telecommunications Bid Proposal
For The
Boonton Board of Ed Fiber to High School
State Contract: A88737*

Date: May 24, 2016

To: Michael Neves

Thank you for giving EXTEL Communications the opportunity to provide you with a proposal for the pathway construction from the Boonton Board of Education building to the Boonton High School.

Our primary objective is to provide you with the best quality work at competitive prices.

Project Pricing

The **Total Base Bid** for the project is **\$73,829.00**. (Bonding for this project is not included in this proposal.)

Rock price of \$133.00 per foot to be added to original project price.

If rock is encountered rock price is to be paid at a minimum of 100 feet.

.

- This proposal does include New Jersey State prevailing wages.
- NJ State Sales Tax of 7% is not included in the materials price.
- *A Purchase Order will be required prior to the placement of any material orders and dispatching of labor.*
- Permit fees **are not** included in this proposal.
- **Please send all Purchase Orders and Sales Tax Certificates to rhopper@extelcommunications.com.**

Scope of Work

- Furnish & install 2" HDPE (approx. 1,300') from existing junction box outside the Board of Ed. building to the third floor IT room at the high school.
- Furnish & install (4) quazite junction boxes along the pathway to be used as pull points.
- Furnish & install (1) wall mount pull box on outside wall of high school.
- Furnish & install 2" RMC from below grade up wall to wall mount box.
- Perform wall penetration into IT room of high school.
- Install pull string in all conduits.
- Install 12 strand MM 50 Mic Fiber, terminate and test.

Responsibilities of others:

- All Permitting.
- Provide access to a water source on site.
- Access to all work areas at all times

Notes, Caveats and Project Assumptions

- Damage to work installed by EXTEL caused by "Others" shall be the responsibility of "Others".
- Permit Fees and acquisition of any permits required for the installation of this project shall be the responsibility of others. This proposal does not include "rock drilling pricing".
- This proposal is based on dirt boring only.
- Price is based on no obstructions or **impenetrable material** encountered of any kind. (dirt bore)
- If impenetrable material of any kind is encountered an alternate means of boring will be required therefore increasing the price of the bore. (Rock pricing noted above)
- Shall rock be encountered within this bore; the price will be adjusted accordingly.
- This proposal does include prevailing wages.

EXTEL provides a (1) year warranty on labor and materials unless otherwise specified.

All work for this proposal is based on normal workday installation hours. (7:00 AM to 3:30 PM Monday through Friday) except as noted within this proposal.

The customer shall be responsible for any required permits and their associated expense prior to start of work. No work shall begin until the Customer's designated single point of contact has approved any expenditure required in connection with obtaining permits.

Upon acceptance of this proposal, the assigned EXTTEL Field Manager shall contact the customer for job implementation details. (i.e.; material color schemes, exact location of equipment racks, wall-mounted hardware, etc.) All post sale questions and installation issues should be directed to the EXTTEL Manager for resolution and/or consideration.

Any changes or additions to the original scope of work after contract signing shall be considered a change order and will be billed separately.

Labor & Material pricing shall remain valid for a **30-day** period, at which time pricing shall be updated to reflect current rates.

Should you have any further questions about this proposal or need any additional information you can contact me at 973-427-3900.

Respectfully,

Roy Hopper
Vice President
EXTTEL Communications, Inc.
